

# BELL BAY ALUMINIUM

## OPERATION

Primary smelting of aluminium

## LOCATION

Bell Bay, Northern Tasmania – situated on the mouth of the Tamar River, approximately five kilometres from George Town and 45 kilometres from Launceston

## OWNERSHIP

100 per cent Rio Tinto

## GENERAL MANAGER

Kevin Taylor

## ANNUAL PRODUCTION

Approximately 190,000 tonnes per annum

## MAIN PRODUCTS

Ingot, block and T-Bar. Ingot is cast in 22, 12 and 8 kilogram sizes for both purity and foundry. Block is cast in a variety of sizes and lengths ranging in weight from 9 to 13.5 tonnes per slab. T-Bar is cast to a variety of lengths to meet customer requirements

## NUMBER OF EMPLOYEES

(as at December 31, 2018)

441 full time equivalent employees and on a typical day up to 60 other contractors undertake work at the smelter. The smelter also creates jobs indirectly for over 1,000 Tasmanians.

## 2018 ECONOMIC CONTRIBUTION

\$194 million spent purchasing goods and services from 300 Tasmanian suppliers and paid \$50 million in salaries. Independent studies have show that Bell Bay Aluminium contributes \$690 million\* per annum to Gross State Product.

## TRANSPORTATION TO MARKET

Road freight and carrier ships

## PRIMARY MARKETS

East Asia, Southeast Asia, India

## TECHNOLOGY

Kaiser P-57 (3 Lines)

## HISTORY

Opened in 1955 the smelter was the first built in the Southern Hemisphere. It began as a joint venture of the Tasmanian and Australian Governments, primarily to overcome the difficulties of importing aluminium during wartime. In 1960 the business was acquired by Comalco Industries Pty Limited. In 2000 Rio Tinto purchased Comalco. The smelter is now operated by Rio Tinto's Pacific Operations division.

## QUALITY

With a commitment to continuous improvement, sustainable development is integrated into all aspects of the business. In 2018 the smelter underwent a successful recertification audit of its Environmental Management System AS/NZS ISO 14001:2015. The smelter also holds accreditation to the following internationally recognised standards: AS/NZS4801, IATF 16949, ISO 9001 and ISO 17025.

## COMMUNITY INVOLVEMENT

Bell Bay Aluminium has a long and proud history of supporting the Tasmanian community. Our initiatives in education, environment, health and wellbeing, arts and diversity are designed to make a positive difference and create quality outcomes.
